If you are an FFA Alumni and would like to share some of your story, we would love to collect some information to share with members during the convention. This will be done in the form of a slideshow that will be on display for FFA members to read during convention.

2. My Favorite FFA Memories

- 3. My Life Now

Any information, photos, and materials that you are willing to share will go toward rebuilding the historical documentation of Alaska FFA. Much of our history was unfortunately lost over the years, so we are attempting to bring as much information together as possible to preserve for the future.
